

## PUBLIC NOTICE

**PERMIT APPLICATION NUMBER:** NRS 08.249

**APPLICANT:** Tennessee Department of Transportation  
Environmental Division  
Suite 900, James K. Polk Building  
505 Deaderick Street  
Nashville, Tennessee 37243-0338  
615-253-2477

**LOCATION:** The proposed alterations are located in 2 unnamed tributaries to Owl Creek along Concord Road (SR-253) from Edmonson Pike to Sunset Rd. in Brentwood, Williamson County (Lat: 35.9872°, Long: -86.7368°) and (Lat: 35.9850°, Long: -86.7275°).

**WATERSHED DESCRIPTION:** The aquatic resources proposed to be altered are within the Mill Creek (Lower Cumberland/Cheatham Lake) Watershed (HUC 051302020201). The resources are two unnamed tributaries to Owl Creek. The Lower Cumberland/Cheatham Lake and Mill Creek watersheds, as well as the two unnamed tributaries to Owl Creek, have been classified for the following designated uses: fish and aquatic life, irrigation, livestock watering and wildlife, and recreation. Further, Mill Creek and the two unnamed tributaries to Owl Creek are considered Exceptional Tennessee Waters due to the presence of the federally listed endangered Nashville Crayfish.

The two unnamed tributaries to Owl Creek, (STR-1 and STR-2), at the project location have a channel bottom width of approximately 4-7 ft., 4-8 ft. top of bank width, and an approximate bank height of 3-5 ft..

**PROJECT DESCRIPTION:** Widen approximately 1.2 miles of Concord Rd. (SR-253) along the existing alignment to a 3-lane road with the inclusion of a pedestrian/bike lane. This will include the removal of the existing culvert structures in an unnamed tributary to Owl Creek at two road crossing locations (Crockett Rd. and near Liberty Church Rd.) replacing them with span bridge structures. Also, the installation of two new precast single span bridge structures for the pedestrian/bike lane, and a minor stream relocation (approximately 100 ft.) of an unnamed tributary to Owl Creek, at Liberty Church Rd., for the transition to the new bridge structure, and the relocated stream channel will be vegetated to establish canopy.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality. This notice may be viewed on the internet at:

<http://www.state.tn.us/environment/wpc/ppo/arap>.

**PERMIT COORDINATOR:** Chip Hannah

**USGS TOPOGRAPHIC QUADRANGLE:** Nolensville, TN Quadrangle 70-NW

No decision has been made whether to issue or deny this permit. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the department. **Written comments must be received within THIRTY (30) DAYS of the date that this notice is posted.** Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department will hold a public hearing.

The permit application, supporting documentation including detailed plans and maps, and related comments are available at the department's address for review and/or copying. The department's address is:

Tennessee Department of Environment & Conservation  
Division of Water Pollution Control, Natural Resources Section  
7th Floor L & C Annex  
401 Church Street  
Nashville, TN 37243

In deciding whether to issue or deny a permit, the department will consider all comments on record and the requirements of applicable federal and state laws.
